

ALESSIA ARANTES DE ALMEIDA BERRY

Los Angeles, CA | +1(310) 256-7334 | aberry12@lion.lmu.edu | linkedin.com/in/alessia-berry | github.com/alessiaberry-beep

OBJECTIVE

Marketing analytics professional with hands-on experience building end-to-end data pipelines, analyzing paid social performance, and delivering actionable insights through interactive dashboards. Seeking an entry-level Marketing Analyst role in streaming or entertainment. Authorized to work in the U.S. under STEM OPT. Open to opportunities nationwide.

EDUCATION

Bachelor of Business Administration (BBA) — GPA: 3.75 Graduation: June 2026
Loyola Marymount University (LMU) | Los Angeles, CA
• Double Major: Marketing (#25) and Information Systems & Business Analytics (#24) — U.S. News & World Report

PORTFOLIO PROJECT

Paramount+ Paid Social Analytics Pipeline Jan 2026 – May 2026
github.com/alessiaberry-beep/marketing-analyst-streaming | Live Dashboard: streamlit.app
• Built a synthetic Meta Ads API (FastAPI) mirroring the real Meta Graph API — string-typed metrics, nested actions arrays, cursor pagination — generating 2,700 rows of daily campaign data across 5 campaigns, 15 ads, Facebook & Instagram over 90 days.
• Engineered an automated ELT pipeline using Python and GitHub Actions to extract data daily, flatten nested JSON, and load to Snowflake RAW with idempotent MERGE logic; ran full 90-day backfill on demand.
• Designed a dbt star schema with 6 models and 22 passing tests: fct_channel_performance (2,700 rows), dim_campaign, dim_date, dim_ad — enabling ROAS, CPA, and funnel analysis across campaigns.
• Scraped 50+ Paramount+ press releases with BeautifulSoup; built a Claude-powered knowledge base with 26 raw sources from 5 sites (Variety, Hollywood Reporter, Deadline, Adweek) synthesized into queryable wiki pages.
• Deployed an interactive Streamlit dashboard (live public URL) surfacing ROAS (0.76x), CPA (\$13.19), conversion funnel (50.9M impressions → 48K purchases), and weekly CPA trends by platform.
• Key insight: retargeting CTR 2.5–5.5% vs prospecting 0.7–2.2%; recommended shifting 20% of NFL prospecting budget to Win-Back retargeting for projected 15–20% ROAS improvement.

WORK EXPERIENCE

Marketing & Data Analysis Intern May 2024 – Aug 2024
Accenture | São Paulo, Brazil
• Analyzed client databases to identify engagement patterns, informing data-driven outreach strategies for enterprise accounts.
• Supported a televised marketing campaign — scriptwriting, filming, and post-production editing for client-facing content.
• Collaborated cross-functionally to streamline accreditation workflows, reducing turnaround time and improving process efficiency.

International Orientation Leader Jul 2025 – Aug 2025
Loyola Marymount University | Los Angeles, CA
• Planned and executed orientation events for incoming international students, supporting academic and cultural transition.
• Managed student communications and collaborated with university departments to deliver onboarding resources and programming.

Marketing Intern Jan 2022 – Jun 2022
Handbook (H.B.F) | São Paulo, Brazil
• Evaluated campaign performance metrics and reported insights to support marketing strategy improvements.
• Created content for corporate communications, media relations, and social media; expanded digital communications to increase audience engagement.

LEADERSHIP & CAMPUS INVOLVEMENT

Graphic Design Coordinator — Human Resources Society Apr 2024 – Present
Marketing Coordinator — Special Games Apr 2024 – Present
Marketing Coordinator — International Student Association Jan 2025 – Present
Marketing Chairman — BRASA (Brazilian Student Association) Aug 2025 – Present

SKILLS

Technical: Python, SQL, dbt, Snowflake, FastAPI, Streamlit, GitHub Actions, BeautifulSoup, Plotly, MySQL, Microsoft Excel (Certified — Office 2019), Claude Code, AI Tools

Analytics: ELT Pipelines, Star Schema Design, ROAS/CPA Analysis, Conversion Funnel Analysis, Paid Social Analytics (Meta Ads API), Data Visualization, A/B Testing

Marketing: Social Media Marketing, Content Creation, Digital Strategy, Campaign Performance Analysis, Event Planning, Cross-Cultural Communication, Public Speaking, Team Collaboration

Languages: Portuguese (Native), English (Fluent), Spanish (Conversational)
